

The VX High Performance Video Extender Range eliminates the problems associated with the separation of a PC and monitor.

Using low cost CAT5 cable and a VX Transmitter and Receiver the link can extend as far as 300m.

Extra features include the standard Cable Equalisation circuitry and one option allows for De-Skew Compensation which eliminates the errors caused by the characteristics of CAT5 cable.

## ● FEATURES

- PC and Display may be up to 300m apart
- Stand Alone and Internally Mounted units
- Adjustable Cable Length Compensation
- Drives over low cost CAT5 cable
- 9600 Baud RS232 Interface included
- 19" Rack Mount Transmitter option
- Universal Power Supply (85-265Vac 50/60Hz)
- Data Display Monitors have internal receiver

## ● BENEFITS

- Better environment for the PC, saves space
- May be used with all manufacturers monitors
- Ensures sharpest picture at all cable lengths
- Cheap to install
- Displays can be monitored and controlled
- More efficient packaging when PC's together
- Will work anywhere in the world
